Advance Diploma in Automation

Diploma in Electrical Engineering and Advance Diploma in Automation Trainee from Schneider Electric, Applying for Automation Engineer in Automation field.

Professional Educational Qualification

Course	Board / University/Institution	Year of Passing	Percentage %
Advance Diploma in Automation	Schneider Electric (Skill Development Institute)	2024	Pursuing
Diploma in Electrical	Centurion University Bhubaneswar	2022	88.10

Functional Skill Set

- Residential wiring and industrial wiring
- PLC programming (Schneider Electric M340 & M221 PLC)
- PLC programming (Schneider electric M340 and M221 PLC)
- Analysing and troubleshooting of electrical systems
- Testing and commissioning of PLC and electrical panels
- Pneumatics and Electro-Pneumatics circuit designing and simulating using fluid-sim P software
- Graphics designing of Industrial projects using SCADA and HMI systems
- Structure and Model design of Industrial projects using AutoCAD
- Electrical circuit designing using E-cad Software

Internship

6 Months apprenticeship in OPTCL (Odisha power Transmission Corporation Limited).

Projects work

Home Automation Using Arduino

This Project We can turn any device into a smart device that can be controlled from your smartphone. While we used a single relay in this project. To keep things simple, we have used a Bluetooth app that allows you to control only a single load, but in case you wish to control more devices

Smart Elevator

The Smart Elevator having 3 floors. In This Elevator, We Have used PLC, HMI, Temperature sensor, Smoke sensor, Capacitive sensor, Inductive sensor. Indicators, Arduino, Load cell, Buzzer,7 Segment display. Push Buttons are installed in every floor to call the car to the corresponding floor. Indicators are installed to display the calling floor in each floor and in the car. Temperature sensor installed to detect the temperature and make the fan on according to set temperature. Smoke sensor installed to detect the smoke, if smoke generates then it will detect and make buzzer on. Programming done through Schneider PLC, Entire process is controlled and monitored by HMI. It also has ability to stored data and reuse when needed.

Basic Educational Details

- 10th From U.N High School, Aruhabad Completed in 2017 with 75%.
- 12th From Gopalpur Junior College, Completed in 2019.

Technology/Software Proficiency

- AutoCAD E-CAD
- Vijeo Designer for HMI Graphics designing
- MS word, excel, Power Point, Tally ERP
- Unity pro S, Eco-structure Control Expert Basic for PLC programming
- Citect Studio 2018 for Graphics designing in SCADA
- Fluid Sim-P for Pneumatics and Electro-Pneumatics circuit designing

Interests/Hobbies/Co-Curricular Activities

- Photography
- Playing Outdoor Games

Personal Details

Date of Birth: 18.12.2001

Nationality: Indian

Marital Status: Single

Father's Name: Shashikanta Pradhan

Language knowledge: English, Hindi, Odia

Address: At-Aruhabad, Dist.-Balasore, Odisha,756044

Declaration

I hereby declare that all the above details are true and correct to the best of my knowledge and belief.

Place: **Yours faithfully**

Date:
